“The Broadleaf Specialists”

For over fifty years, the Chesapeake name has been synonymous with top quality broadleaf evergreens. We now encompass over 1300 acres on Maryland’s Eastern Shore. Approximately half of this acreage is used for the production of high quality ornamental shrubs. We currently grow over 150 varieties of Azaleas, Barberry, Boxwood, Hydrangea, Ilex, Nandina, Ornamental Grasses, Pieris, and many more in various sizes suitable for garden centers, landscape contractors and re-distribution centers.

The sales office, propagation department and Pemberton farm, is located three miles west of Salisbury on Pemberton Drive. Loading and shipping facilities, the repair and fabrication shop and the Green Hill farm, are 11 miles west of Salisbury on MD Route 352.

The nursery was started in 1962 with the first propagation in one unheated, deep cold frame. Our “nursery’s nursery” now consists of more than 50,000 square feet of heated space including a ¾ acre Cravo retractable roof greenhouse, the first one of its kind on the east coast. Over 300,000 liners are produced each year. Most liners start as softwood cuttings planted in pine bark and rooted under intermittent mist.

Chesapeake’s container operation started in the mid-80’s and is now producing over 600,000 plants per year in 3 to 20 gallon plastic pots. We are currently growing in 1100, 300’ hoop houses. We primarily use bark as our growing media and fertilize with dry granular slow release fertilizers. Much emphasis is placed on growing full, dense, healthy, top quality plants. Tremendous time, effort and resources go into production techniques, over-wintering, shipping and customer service. Plants are pruned many times during their production to develop well branched, properly shaped, full tops. Six key managers individually label plants by shipment with strict adherence to uniform grading. No plants are pulled in advance; each plant is selected just prior to loading.

In the pulling operations, all plants are placed on 4’ x 6’ pallets to eliminate additional lifting and handling. Currently 25 semi trailers and two straight trucks are used to send out over 800 loads per year to markets in the Northeast and Midwest. All of our delivery vehicles are decked to insure plants arrive to you in excellent condition. No plant material is double-stacked. We are currently loading as many as 15 loads per day with three crews using four docks with conveyors.

We are currently developing new growing areas for above ground container production. We want to be able to increase the depth of our inventory so that we can supply the plant material you need in the quantities you want. If you haven’t been to the nursery in the last couple of years you can’t imagine how much we’ve accomplished. We welcome the opportunity to show you around.

Dwarf Satsuki selection from Polly Hill. Large single white with flecks of pink.
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 6

BARBERRY
ROSE GLOW
New foliage is variegated pink, turning red in the fall. Grows up to 5-6’.
Mature height: 5 feet
Mature spread: 4 feet
Zones: 4
BARBERRY ROYAL BURGUNDY
Mature height: 2 feet
Mature spread: 3 feet
Zones: 4

BOXWOOD GREEN MOUNTAIN
Most upright of this group of hybrids. Small dark green leaves, excellent for hedging.
Mature height: 5 feet
Mature spread: 3 feet
Zones: 5

BOXWOOD GREEN VELVET
Slow grower. Small dark green leaves.
Mature height: 4 feet
Mature spread: 4 feet
Zones: 5

BOXWOOD WINTER GEM
Dark green, oval-shaped leaves with a small dense compact growing habit. Excellent plant for hedges or individual specimen.
Mature height: 4-6 feet
Mature spread: 4-6 feet
Zones: 5

CHAMAECYPARIS GOLD MOPS
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 4

CUPRESSOCYPARIS LEYLANDII
Fast growing pyramidal, to 40' x 15', with blue-green foliage. Excellent for screening.
Mature height: 40 feet
Mature spread: 15 feet
Zones: 6

EUONYMUS MANHATTAN
A hybrid with excellent glossy, dark green foliage. Forms a rounded 4 to 6' high shrub.
Mature height: 6 feet
Mature spread: 5 feet
Zones: 5

GRASS CALAMOGROTIS KARL FORESTER
Deep green, lustrous foliage. Clump forming and strictly up-right. Buff colored vertical plumes in late summer. Grows to 6'.
Mature height: Foliage to 2 feet, flower stalks to 6 feet
Mature spread: 2 feet
Zones: 4
GRASS PENNISETUM HAMELIN
Compact growing switch grass that has bluish green foliage emerge turning to burgundy-red very quickly. Develops finely textured reddish-pink flower panicles that become beige into the winter.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

GRASS MISCANTHUS MORNING LIGHT
Grows to 4’, narrow dark green foliage, streaked with white. Reddish blooms in early September.
Mature height: 4 feet
Mature spread: 2 feet
Zones: 5

GRASS MISCANTHUS STRICTUS
Nearly identical to Zebra Grass only more upright. Grows to 9’. Copper tinted blooms in September.
Mature height: 9 feet
Mature spread: 3 feet
Zones: 5

GRASS MISCANTHUS Scroll
ted
Mature height: 9 feet
Mature spread: 3 feet

GRASS MISCANTHUS ADIAGO
Improved Maiden Grass. Stays at a slightly shorter height. Tan 5’ blooms in August.
Mature height: 5 feet
Mature spread: 3 feet
Zones: 8

GRASS MISCANTHUS MORNING LIGHT
Grows to 4’, narrow dark green foliage, streaked with white. Reddish blooms in early September.
Mature height: 4 feet
Mature spread: 2 feet
Zones: 5

GRASS MISCANTHUS MORNING LIGHT
Grows to 4’, narrow dark green foliage, streaked with white. Reddish blooms in early September.
Mature height: 4 feet
Mature spread: 2 feet
Zones: 5

GRASS MISCANTHUS GRACILLIMUS
Narrow dark green foliage to 6’ tall. Copper red blooms in late September.
Mature height: 6 feet
Mature spread: 4-5 feet
Zones: 5

GRASS PANICUM SHENANDOAH
Compact growing switch grass that has bluish green foliage emerge turning to burgundy-red very quickly. Develops finely textured reddish-pink flower panicles that become beige into the winter.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

GRASS PANICUM NORTHWIND
Tall ornamental switch grass with great vertical form. Finely textured yellow flower panicles develop around July and last into winter turning more to beige.
Mature height: 4-6 feet
Mature spread: 2-3 feet
Zones: 5

GRASS PENNISETUM HAMELIN
Good compact grower to 2’ high. Creamy white spikes in July. Available in a #2 Pot.
Mature height: 2-3 feet
Mature spread: 1-2 feet
Zones: 5

GRASS MISCANTHUS GRACILLIMUS
Narrow dark green foliage to 6’ tall. Copper red blooms in late September.
Mature height: 6 feet
Mature spread: 4-5 feet
Zones: 5

GRASS CORTADERIA SELLOANA
Huge feathery plumes in mid-June. Often reaching 10’ high and nearly as wide if given enough room.
Mature height: 8-10 feet
Mature spread: 3-4 feet
Zones: 8

GRASS PANICUM NORTHWIND
Tall ornamental switch grass with great vertical form. Finely textured yellow flower panicles develop around July and last into winter turning more to beige.
Mature height: 4-6 feet
Mature spread: 2-3 feet
Zones: 5
**GRASS SACCHARUM RAVENNEA**
Nearly identical for Pampas grass. Matures at 10’. Rapid grower.
Mature height: **9 feet**
Mature spread: **3 feet**
Zones: **5**

**HEMEROCALLIS STELLA D’ORO**
Golden yellow blooms that repeat thru the summer. Very dwarf.
Mature height: **Foliage up to 12 inches and flower stalks to 2.5 feet**
Mature spread: **12 inches**
Zones: **3-9**

**HEMEROCALLIS STELLA D’ORO**
Golden yellow blooms that repeat thru the summer. Very dwarf.
Mature height: **Foliage up to 12 inches and flower stalks to 2.5 feet**
Mature spread: **12 inches**
Zones: **3-9**

**HYDRANGEA ALL SUMMER BEAUTY**
Smaller than Nikko Blue. Profuse bloomer. Flowers range from pink to blue and often rebloom.
Mature height: **3-5 feet**
Mature spread: **3-5 feet**
Zones: **5**

**HYDRANGEA ANNABELLE**
Improved ‘Snow Hill’ Hydrangea with huge creamy white flower heads. Prefers shade. Mature size 4’ to 6’.
Mature height: **3-5 feet**
Mature spread: **4-6 feet**
Zones: **4**

**HYDRANGEA ENDLESS SUMMER**
Hardy, repeat bloomer on both old and new wood. Showy flower mops with pink to blue blooms. Mature size 3’-5’.
Mature height: **5 feet**
Mature spread: **5 feet**
Zones: **4**

**HYDRANGEA BLUSHING BRIDE**
Rebloomer like the Endless Summer, but with white blooms that will fade to blush or pale blue depending on pH of soil. Mophead blooms against dark green foliage.
Mature height: **4-5 feet**
Mature spread: **4-5 feet**
Zones: **5**

**HYDRANGEA BLOOMSTRUCK**
This variety has good heat tolerance and disease resistance. Blooms in late spring thru fall with rose-pink to purple flower heads depend on the pH of the soil. It also has beautifully strong red-purple stems.
Mature height: **3-4 feet**
Mature spread: **4-5 feet**
Zones: **4**

**HYDRANGEA GLOWING EMBERS**
Bright pink blooms that will not turn blue. Mature size 3’ x 3’.
Mature height: **3 feet**
Mature spread: **3 feet**
Zones: **5**
**HYDRANGEA NIKKO BLUE**
Beautiful globe-shaped blue flowers in acid soils. (Flowers will be pink in alkaline soils.) Nice rounded shape that will grow to 5'. A prolific bloomer.
Mature height: 5 feet
Mature spread: 5 feet
Zones: 5

**HYDRANGEA TWIST AND SHOUT**
Another compact form, only 3-4' tall with closely spaced foliage and white flowers.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

**HYDRANGEA PETIOLARIS**
Elegant vine with glossy dark green leaves and profuse lacy white flowers in June. Grown in a 5 gallon can and attached to a trellis. Can climb to 30'+!
Mature height: 30 + feet
Mature spread: 30 + feet
Zones: 4

**HYDRANGEA Q. PEE WEE**
Compact grower, 3' x 3'. Flowers only 4-5" long. Showy, wine red autumn foliage.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 5

**HYDRANGEA Q. QUEEN OF HEARTS**
Dark green foliage that turns a mahogany red in fall. Large upright inflorescences start with white flowers that slowly turn a deep pink.
Mature height: 6-7 feet
Mature spread: 9 feet
Zones: 5

**HYDRANGEA Q. RUBY SLIPPERS**
This nicely rounded shrub is dark green in summer and turns mahogany-red in the fall. In early summer it is covered by 9" upright inflorescences that stand up above the foliage. Flowers start off white, but quickly move to pink and eventually rose.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 5

**HYDRANGEA Q. SYKES DWARF**
Another compact form, only 3-4' tall with closely spaced foliage and white flowers.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

**ILEX AQUIP DRAGON LADY**
Mature height: 15 feet
Mature spread: 5-6 feet
Zones: 5
**ILEX CRENATA CHESAPEAKE**

Beautiful pyramidal variety with deep green color and glossy convex leaves. Grows to a 6-7’ height by 4’ wide.

- Mature height: **6-7 feet**
- Mature spread: **4 feet**
- Zones: **5**

**ILEX CRENATA EXCELSA SCHWOEBEL**

Very hardy pyramidal Jap Holly. Flat leaf. Grows to 6-8’.

- Mature height: **6-8 feet**
- Mature spread:
- Zones: **5**

**ILEX CRENATA NIGRA**

Pyramidal growth habit, 6’ x 4’. Slightly larger leaf than Steeds with a dark bluish green cast.

- Mature height: **6 feet**
- Mature spread: **4 feet**
- Zones: **5**

**ILEX CRENATA SKY PENCIL**

Slender, upright evergreen shrub. Shears great for a formal look or to use as a vertical accent.

- Mature height: **6-8 feet**
- Mature spread: **12-18”**
- Zones: **5**

**ILEX CRENATA STEEDS**

Pyramidal growth habit, although narrower than other upright Japanese hollies. Very nice, dark green foliage. Excellent choice for hedge or screen. 8’ tall x 4’ wide.

- Mature height: **8 feet**
- Mature spread: **4 feet**
- Zones: **6**

**ILEX CRENATA COMPACTA**

Excellent dark green color. Strong grower, very dense. Can take heavy shearing. Bennett hybrid.

- Mature height: **3-4 feet**
- Mature spread: **4-5 feet**
- Zones: **6**

**ILEX CRENATA GREEN LUSTRE**

Compact, dark green lustrous foliage.

- Mature height: **4 feet**
- Mature spread: **4 feet**
- Zones: **6**

**ILEX CRENATA HELLERI**

Dark green, dense, twiggy foliage to 5’ tall x 10’ wide.

- Mature height: **5 feet**
- Mature spread: **10 feet**
- Zones: **6**

ILEX MESERVEAE
BLUE MAID
Plant Patent 4865. One of the best of the hardy Blue Hollies. A broad pyramidal grower up to 15’ with large red berries. Hardy to -15º F.
Mature height: 10-15 feet
Mature spread: 6-8 feet
Zones: 4

ILEX MESERVEAE
BLUE PRINCESS
Hybrid evergreen female holly with dark green foliage and vibrant red berry production. Excellent for hedging.
Mature height: 10-15 feet
Mature spread: 8-10 feet
Zones: 5

ILEX MERSERVEAE
CHINA BOY
Plant Patent 4803. Male counterpart to ‘China Girl’. Matures to 5’ x 5’.
Mature height: 5 feet
Mature spread: 5 feet
Zones: 4

ILEX MERSERVEAE
CHINA GIRL
Plant Patent 4878. A beautiful Meserveae hardy hybrid (Cornuta x Rugosa). Rounded compact habit growing to 6-7’. Attractive glossy green foliage and will take shearing very well. An excellent berry setter.
Mature height: 6-8 feet
Mature spread: 5-6 feet
Zones: 4

ILEX RED
OAKLEAF
Large, light green foliage. Tall pyramidal grower, 14’ x 8’. Fastest grower of the red hollies.
Mature height: 14 feet
Mature spread: 8 feet
Zones: 6

ILEX X
NELLIE R. STEVENS
A beautiful pyramidal Holly which is a cross between English and Chinese Holly. Waxy green foliage. Excellent specimen plant or hedge growing to 15-20’.
Mature height: 15-20 feet
Mature spread: 10 feet
Zones: 6

JUNIPERUS
CONFERTA
BLUE PACIFIC
Graceful ground cover with blue-green foliage.
Mature height: 12 inches
Mature spread: 6-7 feet
Zones: 6

LIRIOPE
NEW BLUE
Improved variety. Dark green foliage. Lavender flowers.
Mature height: 12-18 inches
Mature spread: 12 inches
Zones: 5
**LIRIOPE VARIEGATA**
Green and white striped foliage. Lavender flowers.

Mature height: **15 inches**
Mature spread: **15 inches**
Zones: **5**

**NANDINA DOMESTICA**
Lacy green foliage that fades to red in autumn. Bright clumps of red berries in spring. Mature size 4-5'.

Mature height: **5 feet**
Mature spread: **3 feet**
Zones: **6**

**NANDINA DOMESTICA FIREFLOWER**
Dwarf variety with larger leaves and good fall color. Mature size 2' by 2'.

Mature height: **2 feet**
Mature spread: **2 feet**
Zones: **6**

**NANDINA DOMESTICA GULF STREAM**
Dense habit and foliage. Mature size 3½' high by 3' wide. More vigorous grower than Moon Bay.

Mature height: **3½ feet**
Mature spread: **3 feet**
Zones: **6**

**NANDINA DOMESTICA HARBOR BELLE**
Compact grower that provides color all year. Shades of pink give way to deep green and burgundy. Small white flowers will yield bright red berries around holiday season.

Mature height: **2 feet**
Mature spread: **2 feet**
Zones: **6**

**NANDINA DOMESTICA HARBOR DWARF**
Dwarf, low spreader. Bright orange-red fall color. Sizes listed are graded either height or spread.

Mature height: **18 inches**
Mature spread: **2½ feet**
Zones: **6**

**PIERIS JAPONICA FOREST FLAME**
Lily-of-the-valley-like, white flowers appear in early spring with new foliage emerging flame red and fading to a creamy pink before maturing in summer to a glossy, dark green.

Mature height: **6 feet**
Mature spread: **6 feet**
Zones: **5**

**PIERIS JAPONICA MOUNTAIN FIRE**
Has bright red leaves in late winter or early spring. These soon age to mahogany & chestnut, then to shiny green. In April white urn-shaped flowers appear, long-lasting into May.

Mature height: **10 feet**
Mature spread: **8 feet**
Zones: **6**
PIERIS JAPONICA
SCARLET 0’HARA
Tall and slender with red new growth. Hardy.
Mature height: 4-5 feet
Mature spread: 4-5 feet
Zones: 5

PRUNUS LAUREL
OTTO LUYKEN
Makes an excellent hedge. White flower spikes in spring and black fruit in summer. Dwarf form of English Laurel.
Mature height: 3 feet
Mature spread: 6 feet
Zones: 6

PRUNUS LAUREL
SCHIPKAENSIS
Stalks of fragrant white flowers appear in spring against the backdrop of glossy foliage in a vase shape.
Mature height: 4-6 feet
Mature spread: 6-8 feet
Zones: 6

SPARIAEA
GOLD MOUND
Dense, bushy dwarf Spiraea will grow to 2½’. Bright yellow foliage all season. Clusters of light pink flowers in June and July.
Mature height: 2-3 feet
Mature spread: 4 feet
Zones: 4

SPIRAEA
LITTLE PRINCESS
Dwarf mounding variety to 2½’ with pink blossoms most of the summer.
Mature height: 3 feet
Mature spread: 6 feet
Zones: 4

SPIRAEA
MAGIC CARPET
A ground cover variation of Gold Flame. New red leaf tips sit in front of yellow to gold mature foliage. Pink Flowers. 10-18” high.
Mature height: 18 inches
Mature spread: 2 feet
Zones: 4

SPIRAEA
NEON FLASH
Like Anthony Waterer. Rich red flowers. Grows to 3’.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 4

THUJA
GREEN GIANT
Fast growing conical evergreen to 60’ x 20’ with rich green scalelike foliage.
Mature height: 60 feet
Mature spread: 20 feet
Zones: 5

TERMS AND CONDITIONS OF SALE

ALL ORDERS - accepted are subject to crop losses or any other condition beyond our control.

SUBSTITUTION OF SIZES - we reserve the right to ship the next grade larger or smaller at the current price of that grade if the grade ordered is not available.

PRICES - are subject to change without notice. Prices are FOB our nursery at Green Hill, near Salisbury, Maryland.

PAYMENT - Unless otherwise agreed, all payment, including freight, is due at time of delivery. For your convenience we accept MasterCard, Visa, Discover, and American Express for plant purchases.

CREDIT TERMS - are available after approval of a credit application. Terms for customers with established credit are net 30 days from date of shipment. A finance charge of 1½% per month (18% annually) will be applied on all accounts not paid within 30 days.

CLAIMS - must be made in writing within 5 days after receipt of plants.

PLANT WARRANTY - we express or imply no warranty or guarantee of continued life of any plant.

ALL ORDERS - are based on the distinct understanding that the purchaser agrees to the conditions of sales as stated above.

DELIVERY SERVICE

We arrange for economical delivery to most locations from Washington, D.C. to Boston and west to St. Louis. Plants are carefully loaded, single stacked on several decks. Freight charges are always net, due and payable at time of delivery.

All customers are expected to provide labor for unloading each delivery.

MINIMUM ORDER FOR DELIVERY
$3,500.00
MINIMUM ORDER FOR PICKUP
$500.00
